SAVITRIBAI PHULE PUNE UNIVERSITY

SANTA'S SCIENCE LAB

FROM MAGICAL CHEMISTRY TO MIGHTY TRANSISTORS!

**2-Day Hands-On Workshop For Students Who
Love Experiments, Gadgets & Christmas Fun**

DAY 1: SNOWFLAKES AND CHEMISTRY LAB

DATE- 29TH DECEMBER 2025

STANDARD- 6TH - 10TH

- **Magic Snow –**
Create fluffy snow instantly using polymer science.
- **Colour-Changing Light Chemistry –**
Watch colours shift like Christmas lights.
- **Grow Your Own Snowflakes –**
Make crystal snowflakes through crystallization.

RS.350/-

DAY 2: PHYSICS AND ELECTRONICS LAB

DATE- 30TH DECEMBER 2025

STANDARD- 6TH ONWARDS

- **Inside the CPU –**
Understand how millions of transistors work together to process information.
- **CPU Dismantle & Assemble Workshop –**
Open, explore, identify hardware components and rebuild a complete CPU system.
- **Electronics Meets Physics–**
Explore how circuits and transistors power the logic of everyday devices.

RS.350/-
