ABOUT THE WORKSHOP

This online workshop will provide a hands-on introduction to Zotero and Mendeley, popular reference management tools, to help researchers, faculty and students organise their references, manage research resources efficiently and create citations and bibliographies with ease.

OBJECTIVES

- 1 To familiarise participants with the key features and functionalities of Zotero and Mendeley.
- 2 To demonstrate how to organise, manage and annotate references and research resources.
- 3 To enable participants to create citations and bibliographies in different styles (e.g., APA, MLA, Chicago) within their word processor.

IMPORTANCE

- Saves time and reduces manual effort in managing references.
- Helps maintain accuracy and consistency in citations and bibliographies.
- Supports ethical research and avoids plagiarism.
- Enhances research productivity and collaboration.
- An essential skill for researchers, students and academic professionals in today's digital environment.
